She leaves the village a few days before school starts.

20. Describe the bees. (να περιγράψεις τις μέλισσες)

{γίνεται αναλυτική περιγραφή σε κάποιο σημείο της ιστορίας}

They have got wings so they can fly from one flower to another. They can see the flowers easily as each bee has got nearly twelve thousand eyes. They also have got two stomachs, one is the honey stomach and the other is the real stomach. They have got stings, so they can protect themselves against enemies. They live together and they have got a queen. Bees are hardworking animals.
